GIGSMART

Get Gigs Quick Start Guide

Get Gigs instantly connects you with local job opportunities — from Shift work to part-time and full-time positions.

1 Set Up Your Worker Profile

Introduce Yourself

Explain your qualifications, specific skills, and what makes you unique, and shows your personality.

Add Work History

Give requesters a better understanding of your background so they know who they're hiring.

Select Positions

Select the Positions that are applicable to you so you can easily be matched with the gigs that are right for you.

Add Qualifications

Qualifications include anything from Tools & Equipment to Licenses & Certifications.

2 How to Work a Gig & Get Paid

Apply to your first Shift Gig

Once you have carefully reviewed the gig description to make sure you're qualified, tap Apply to submit your application.

Accept the Gig offer

As soon as you receive an offer, you have the ability to accept or reject it. Once you accept the offer, you're hired!

Work the Shift Gig

Start your gig clock, communicate with the requester in app, and complete the gig to get paid.

Get Paid

The Requester will review and approve your Timesheet and transfer your earnings directly to your Worker Wallet.

Get Gigs connects you to every available work opportunity:

Shift Gigs

Shift Gigs are posted by business requesters who are hiring workers for hourly Shifts. When you work a Shift Gig, your hours will be tracked and your payment will be transferred to your Worker Wallet in the Get Gigs app.

Project Gigs

Project Gigs are posted by residential requesters who are searching for workers who can complete household projects. As soon as you're hired for a Project Gig, you'll work directly with the requester to finalize the project timeline and payment method.

Job Board

The GigSmart Job Board displays all open part-time, full-time, and contract positions posted by businesses in your area. Once you find a job you're interested in, you can apply directly through the company that is hiring.
